

# Ground Breaking News

## Mission Statement

Continuing to build a company dedicated to safety, quality and integrity; providing an exceptional work place for its employees; committed to a product that meets or exceeds our customers expectations

## A message from Jim Anderson:

As we go into the fall we will see an increase in the workload with the additional jobs below. Enjoy your short rest for as the project managers prepare for the new workload. Fall will be very busy in both DC and Virginia. It is important to note as the work picks up we need to remember to focus on all the safety precautions for new job starts that we have put in place. Let's finish this year strong and safe and look for another one next year. Thank you for all you do to contribute to our success in all areas especially safety!

## Safety Tips—Defensive Driving

In all cases, while operating a motor vehicle, drivers should practice defensive driving techniques. Defensive driving is the art of driving so as to prevent and avoid traffic crashes, regardless of the unsafe conditions and actions created by other drivers and adverse road and or weather conditions.

A good defensive driver will practice the following eight techniques:

- Glance well ahead in the direction of travel. Look 2 or 3 vehicles ahead to observe driving conditions in front of you. This allows you to consider a condition before you reach it.
- Get the “big picture”; learn to see the entire roadway. Sweep the scene, sides and back. Avoid “tunnel vision”. Keep your eyes moving; Position vehicle slightly offset to traffic to increase your field of vision.
- Always allow an escape route, leave a cushion by slowing or moving ahead of the vehicles beside you.
- Keep your vehicle visible and signal your intentions early.
- When stopped prior to making left turns across incoming traffic leave wheels straight to prevent being pushed into oncoming traffic in the event of a rear-end crash.
- When entering intersections practice looking left/right/left. Be sure to come to a full stop before proceeding.
- Learn to compensate for hazards such as weather, debris, potholes, loose gravel, or sand.

ALWAYS maintain a cautious driving attitude. Remember, when entering a congested city watch for bike and pedestrian traffic when traveling around schools and shopping centers.

## **401K**

Set up your 401K on mykplan.com and begin registration. Once you are registered, you can use the same ADP app that you use to check your paystubs. **Your username for 401K is different than your paystub username.** Remember that your username for your paystubs ends in **@ASO1**

Those who have enrolled can use a *free* service called TELADOC:

1. Set up your Account
2. Provide Medical History
3. Request Consult

Save yourself a visit to the doctor and see one at the comfort of your home.

## Job Spotlight

### Reston Crescent

Project Executive: Mo Salman

Project Engineer: Josh Payne

Area Superintendent: Mike Richardson

Superintendents: Shawn Greystone, Corey

Schirmer, Earl Jackson

In January of 2019 , The Anderson Company entered into a contract with James G Davis Construction Corporation to perform a two phase project, including construction of a new 6 acre parking lot and a 90,000 CY excavation for a new multiuse building, on its site at Reston Crescent in Reston, VA. The entire Reston Crescent development will eventually be a complex with 6 new multiuse buildings.

Due to the phasing of the project, we were able to complete the construction of the new parking lot in a remarkable 5 months, keeping Davis on their schedule to start the building excavation. Since July, Anderson has been working diligently to excavate the 90,000 CY in the building and to this date is roughly 50% done, with some days hauling as much as 3,500 CY. Anderson's top performance on this project will help maintain a strong relationship with Davis and keep us at the top of their preferred contractor list.

The Anderson Company continues to be the go-to contractor and a key player in developing the job on this marquee project. Our get-it-done attitude and attention to detail has contributed greatly to the timeline and budget of this project.

Thank you to all the operators, laborers, drivers and truck checkers that have made the success of this job possible!

## Employee Spotlight

### Cesar Mora

Cesar has been employed with Anderson for over 17 years. He is currently an operator and runs a 963. He was named operator of the Year in 2018 because of his outstanding safety performance and his dedication to getting the job done safely. Cesar has an outstanding attitude and is always there when we need him.; Cesar loves going to the gym and working out after work, on weekends he loves to watch sports, likes the redskin and soccer. Cesar also loves to cook especially traditional Mexican food. Cesar and his brother Mickey cater their own Mexican tacos after work.
