Mission Statement

Continuing to build a company dedicated to safety, quality and integrity; providing an exceptional work place for its employees; committed to a product that meets or exceeds our customers expectations

A message from Patrick Doering:

As the new year has started we all have a clean slate to work with. Many people make New Year's resolutions to lose weight, eat better, work out more, etc... Now is the time to make your work resolutions. Make commitments to be a better employee, a better boss, a better leader. Make a commitment to be safer and to make your coworkers safer. This is going to be a very busy year for us and we need everyone on board to make this year one of our best ever.

Safety Tips— Slips, Trips, Falls

Merry Christmas and a Happy New Year and welcome back to work. I hope everyone enjoyed the holidays with family and loved ones. We made it to winter and there's a few things you want to keep in mind in the construction world.

Slips, Trips, and Falls are the number 1 leading cause of injuries and death in Construction overall. I found a chart that shows the statistics of the injuries and deaths by trades in 2018:

- Construction: 24,700 injuries, 384 deaths
- Manufacturing: 22,040 injuries, 49 deaths
- Wholesale trade: 10,250 injuries, 21 deaths
- Retail trade: 29,830 injuries, 29 deaths
- Transportation and Warehousing: 23,490 injuries, 46 deaths
- Professional and business services: 22,090 injuries, 111 deaths
- Education and health services: 43,660 injuries, 18 deaths
- Government: 63,350 injuries, 44 deaths

As you can see there's plenty to worry about in our trade. Please keep in mind how dangerous our job can be and be alert at all times. Here are some of our job duties that we do every day that could cause in injury or even death.

Running on the jobsite to make sure trucks are lined up properly.

Climbing into or down from your machine when it's wet, icy, or snowing.

Shoveling snow, ice, or spreading salt.

Walking in the work areas where there's lots of debris.

Lets' not be a statistic and do our part by, dressing correctly for the job, don't take short cuts, use the correct tools, and most important do the job safe. Remember if it don't feel or look right, don't do it. Ask for help from your superintendent or the safety department, we're here to help and guide you.

401K

Set up your 401K on mykplan.com and begin registration. Once you are registered, you can use the same ADP app that you use to check your paystubs. You can enroll or make any changes at any time for your 401K. **Your username for 401K is different than your paystub username.** Remember that your username for your paystubs ends in [@ASO1](#)

TELADOC is still a service that is available. Just select register on the TELADOC app and it should link with your AETNA Innovation Health account. It is no longer free, but still convenient.

Available with AETNA: If you are enrolled in our medical plan you can earn points for a FREE Apple Watch (must pay taxes to order) or gift cards if you already have an Apple Watch! Download the ATTAİN by Aetna application (available on iPhones only). Use the same login for your AETNA medical account and it will ask you if you already own an Apple Watch or if you would like to earn points to earn your watch. There are goals that you need to meet weekly, which are based on your weight and sex. As long as you meet your goal each week you earn enough points to pay for your watch each month! If you already own an Apple Watch—the points you earn can be used for gift cards to a selection of stores.

Reminder from our IT Manager, Virginia Anderson:

Make sure you are changing your passwords to your e-mail regularly. This applies to your personal and company emails. Make sure your password is at least 12 characters and includes numbers and symbols that are not consecutive.

W-2's have been mailed out so you should be receiving it in the mail shortly.

Job Spotlight

Parcel G

Project Executive: Greg Boltersdorf
Project Engineer: Matt Hitt, Caleb Lindsey
Area Superintendent: Mike Richardson
Superintendents: Mike Keith

The Yards Parcel G

Location: SE Washington DC

The Anderson Company was subcontracted by James G Davis Construction to perform the mass excavation of this new Class A Commercial Building at The Yards. The building is planned to be the new headquarters for Chemonics International and will be 11 stories with 295,000 gross square feet.

The Anderson Company has played a crucial roll in the ongoing massive development of The Yards, going back to the start of the development and transition from the government owned historic Navy Yard. We recently completed the mass excavations for Parcels N, O and L. We have a stellar record with the property owner, Brookfield Properties and look forward to our continuing relationship on the many planned developments slated for this premium community adjacent to the Anacostia River and Nationals Stadium.

Our site team, led by the very competent superintendent, Mike Keith, has attacked this difficult hole with enthusiasm. The mass excavation of 40,000 cubic yards was complicated by having an existing building demolition that had to occur concurrently while digging the hole. This difficult task was performed without a hitch and impressed the general contractor and owner by our attention to safety during this tricky undertaking.

In addition to very wet conditions and the raker shoring, our team also managed the handling of over 19,000 tons of contaminated soil. The GC, James G Davis, set an aggressive schedule for winter work and once again The Anderson team stepped up and delivered.

Thanks to the hard work of this team and the entire operations division we have another successful project for the books!

Employee Spotlight

Ron Riggins

Ronnie has been employed with Anderson for over 15 years as our lowboy driver. His time actually started moving equipment for Mullins. His dedication to safety and the company has been outstanding and his record with us is impeccable. He was the driver of the year in 2006, 2007, 2011, and 2017. He drives in some of the most congested areas in the region and has done it safely. In his spare time Ronnie likes to spend time with his family and enjoy his time off.
